

KIM ENGINEERING LTD.
/ Bulgaria

KIM Engineering Ltd.

KIM ENGINEERING Ltd. is founded in 2004.

At the beginning the main goal is to develop all types of filters used in processing of vegetable oils. The company is exclusive representative for Europe of "Veendeep Oiltek Exports" (India).

In its design and production activity the company is governed by European regulations.

It is certified by ISO 9001: 2015

To be up to date with the issues in the oil industry, the company is a member of the *Oilseed Oil Producers Association* in Bulgaria.

The basis of design is formed with the following parameters:

- *occupational safety;*
- *economy;*
- *energy saving;*
- *protection of the environment;*
- *simplifying the manipulation and operation of the equipment;*
- *implementation of maximum automation;*

Quality is our first priority!

KIM ENGINEERING places as priority into its work the quality and functionality in the design and manufacture of equipment for:

✓ **Preparation of seed**

✓ **Pressing**

✓ **Extraction**

✓ **Filtration**

✓ **Refineries**

What else we do...

- Production of crude oil filters, bleaching, winterization and control filtration.
- Design and manufacture of equipment for refining of vegetable oils.
- Design and manufacture of equipment for biodiesel.
- Design and manufacture of equipment for processing of oilseeds.
- Design, manufacture and installation of steel structures for production halls.
